

Call to save democracy:

The FCC is being called upon at this time to keep the power of the media as it is intended...to serve the people, not manipulate them with biased views passed off as fact!

Sinclair Broadcasting's arrogant decision to force their stations to air an anti-Kerry documentary days before the election is a clear example of the dangers of media consolidation.

Sinclair uses the public airwaves free of charge, and is obligated by law to serve the public interest. But when large companies control the airwaves, we get more of what's good for the bottom line and less of what we need for our democracy.

Once again, forcing their stations to show politically slanted shows right before a very serious election is a grave disservice to all of us. Please consider sanctions and not reviewing their broadcast license.
